## 14 REPORT FOR BASEBALL TEAM HERE APRIL 18

### West Liberty To Start Playing At Berea On May 9

Fourteen candidates for West Liberty's Bluegrass League baseball team reported for the first practice session here Sunday.

The West Liberty club will open its playing in the Eastern Division of the Bluegrass League May 9 at Berea.

West Liberty Manager Clarence Black reports he is well pleased with prospects for a winning team this season. The players are evincing a lot of spirit and townspeople are backing them in a manner that is conducive to sustained enthusiasm.

Out for the initial practice Sunday were: Butch Hamilton, Freddy Blair, Jerry Franklin, Billy Ratliff, Elmer Litter, Geo. Fennell, Buster Pelfrey, Walter Brown, Richie Stacy, Hershel Blanton, Bob Blair, Paul Haney, Harold Hammond, Merle Nickell, all local boys.

A second practice session will be held here Sunday afternoon, and Manager Black has invited any prospective player in the county to come out and join in the practice.

The local club received gross receipts of \$172.00 from the Home Talent show staged last Saturday night in the local gym. A crowd of approximately 600 people attended. Net proceeds were \$132.00 and this will aid in paying the club's forfeiture deposit in the league and help pay for needed equipment. Manager Black said he will not employ out-of-town players this year but will depend entirely on local players. However, the club still needs additional funds to carry it through the season. Local business houses are contributing to the fund.

Each club in the league will play 15 games this season, half of them on the home field. A playoff series will be held at the conclusion of the regular schedule.

## In Of Morgan

A unique religious project in journalistic form was used by the Christian Church of West Liberty last week end when its pastor, Rev. Fred Penniston issued a 4-page newspaper, The Jerusalem News, to townspeople. The project, according to the paper, was an attempt to present the story of the events leading up to Christ's resurrection as a modern newspaper would report them. The 4-page tab contained a number of pictures and news stories of the crucifixion and resurrection. The paper was dated April 9, A.D. 30.

## Louisville Chamber of Commerce To Visit West Liberty On May 20

West Liberty businessmen will welcome 80 Louisville business and civic leaders May 20, when the 1954 spring Get-Acquainted Tour of the Louisville Chamber of Commerce comes to town.

The four-day tour, May 18-21, will take in 23 cities in Eastern Kentucky on a sweep of 866 miles.

The tour party will travel in three air-conditioned Greyhound buses, behind a State Police escort. A loudspeaker on the lead bus will announce the arrival in each city with the playing of "My Old Kentucky Home." Members of the Louisville Chamber of Commerce will wear the trademark—white hats with red brims—and will carry red and white umbrellas.

The Get-Acquainted Tour is a tradition of the Louisville Chamber of Commerce as it was with its predecessor organization, the Louisville Board of Trade. It is a goodwill tour, staged with the idea of giving Louisville businessmen an opportunity to keep up old contacts and make new contacts with men they do business with in the Louisville trade area, to tell other Kentuckians about new things Louisville has to offer, and to keep abreast of developments in the area.

Get-Acquainted Tourists will represent every phase of business and civic life in Louisville—the Chamber of Commerce, City government, newspapers, radio and TV stations, insurance and investment firms, bankers, wholesalers, hotels, restaurants, industrial plants, manufacturers, and service businesses.

At meal stops, the Louisville businessmen will be joined by local businessmen for informal discussions. Lunch stops are scheduled at Sue Bennett College in London, VFW Club in Hazard, at West Liberty, and at the Morehead Grade School in Morehead. Dinner will be served in private hotel dining rooms in Middlesboro and Ashland, and in the cafeteria of Pikeville Junior College in Pikeville.

Overnight stops will be made at the Hotels Middlesboro and Cumberland in Middlesboro; the Fletcher and Pinson Hotels, Pikeville; and the Henry Clay in Ashland.

The Get-Acquainted Tour will visit these towns:

On Tuesday, May 18—Manchester, London, Corbin, Barbourville, Pineville and Middlesboro.

Wednesday, May 19—Hartsville, Cumberland, Whitesburg, Hazard, Hindman and Pikeville.

On Thursday, May 20—Prestonsburg, Paintsville, Salsberyville, West Liberty, Sandy Hook, Louisa and Ashland.

On Friday, May 21—Grayson, Olive Hill, Morehead and Owslingville.

## Morgan In Counties Facing Higher Tax Assessment By State

FRANKFORT, Ky., April 20—Property assessments in about half of Kentucky's 120 counties will be raised under a broad new policy covering property valuations for taxation.

Under the new policy, announced yesterday by the Tax Commission, no county's total assessment will be allowed to be below the statewide average of 30 percent of the estimated market value.

Real estate assessments last year ranged from 17 percent of fair market value to approximately 57 percent, according to Revenue Department figures.

Commission Chairman Robert H. Alphin said the 30 percent figure on realty will apply to both real estate and personal property. He described it as a floor under which no county's property assessment will be allowed to drop. The commission will step in where counties fail, on their own, to raise assessments to the 30 percent level.

The step was described as being toward fairer equalization of property assessments throughout the state.

Counties whose percentages were below the 30 percent floor last year on farm acreages and on the head of Middle Fork, and included: Morgan, Montgomery, Breathitt, Magoffin, Martin, Menifee and Floyd.

## NEW REA OFFICE BUILDING TO BE STARTED SOON

Contract Will Be Let May 6th For 1-Story Building

Bids will be opened here May 6 by the Licking Valley R.E.A. on the construction of a modern brick office and warehouse building on the lot purchased last year by R.E.A. from J. P. Oney between Main and Water streets in West Liberty.

Final approval of plans and specifications for the building were received from the Rural Electrification Administration in Washington last week. Fred Rose, manager of the co-op, said this week.

Construction work should be under way by the last of May, Mr. Rose added.

The building will be a one-story modern brick structure facing 100 feet on Main street. Two wings will extend back from the main building on either side of a court and connect with a 52x102-foot warehouse and garage facing on Water street.

The main building will contain a 30x20-foot lobby, ten offices and a 21x30-foot electric kitchen for use by local groups and for demonstrations. It also will contain a walk-in vault for storage of R.E.A. files, etc.

A 13x27-foot basement will contain modern air conditioning and heating systems for the structure.

The space in front of the building on Main street will be paved for use as parking space by patrons. Entrance to the warehouse and garage will be from Water street.

The Oney lot is 210x210 feet and contains about one acre. The large Oney home on the lot was sold to the Calvary Baptist church of Cannel City and was razed several months ago. The material is now being used in building a church at Cannel City.

Mr. Rose said that savings of rent and insurance and the added efficiency resulting from the new offices should pay for the building over a long period of years. Too, it will be more convenient for patrons of R.E.A.

The Licking Valley Co-op has approximately 6,300 patrons in six Eastern Kentucky counties.

## Chapel Program By Kiwanis Club Cites Teacher Recognition

The Kiwanis Club of West Liberty gave a program at the chapel in the high school Friday morning as a tribute to all teachers. W. O. Pelfrey, principal, presented Dr. Alec Spencer who had charge of the program.

Dr. Spencer said that teachers make up the greatest group of people there are and receive the least recognition and pay. He suggested that patrons invite teachers to the guests in their homes and get acquainted.

He introduced Rev. R. L. Meyers, pastor of the Methodist church, whose text was from Timothy. Rev. Meyers emphasized the influence of his mother and grandmother on his life as recorded by Paul. Rev. Meyers said, "Too often we take things for granted and are ungrateful. Teachers wear their lives away day by day for their pupils. We should give flowers while living and not wait for the funeral."

Dr. Meyers spent four years at Lincoln Memorial University and said he cannot forget the influence of his teachers.

More than a thousand school children from all grades filled the bleachers and the balcony with their teachers. Present also were Postmaster Wendell Nickell, who is president of the Kiwanis Club, Woodrow Stamper, Rev. Fred Penniston, Walton Jones, Mr. and Mrs. L. H. Owens and Mrs. H. D. Potter, and Mrs. W. D. Emrick.

## "Farmer In The Dell" Will Be Presented At Cannel City School

Approximately 50 first graders will present "The Farmer In The Dell," a colorful and lively operetta, at Cannel City, April 23 at 7 p.m.

There really is no story. This operetta is a series of imaginary episodes that could happen in a child's idea of a secret dell. There almost anything can occur.

The action is preceded with a few comments by a commentator, Danny Lacy, and a song by the chorus. This song is developed around the English singing game "The Farmer In The Dell." Since the play begins at dawn, reveille is sounded, followed immediately by nature's own reviller, the Rooster. Then ensues a short episode between the Rooster and the Scarecrow, in which the Scarecrow shows his displeasure at being disturbed.

When the light of day is full, Puff, a gentle breeze comes to pester all creatures to activity. Very naturally two crows put in an appearance in which they prove that a scarecrow really scares. There then follows a series of short scenes with the Silver Bells and Cackle Shells, the Apples, Snug, the Bug in a Rug, Butterflies, and again the Rooster and the Scarecrow.

After this the farmer himself dominates his dell and we have a succession of events with Little

Bo Peep, the Farmer's Helpers and Pretty Maids, Mistress Mary and an egg.

The show concludes with a song, "Commotion," when the entire cast is assembled and a final song, "Farewell."

The following children make up the operetta:  
Commentator, Danny Lacy;  
Rooster, Virgil Lykins;  
Scarecrow, Jackie Lykins;  
Puff, the Breeze, Sheila Lacy;  
Two Black Crows, Bill Gullett and Eddy Jo Gevedon.

## PIERCE WILLIAMS DIES AT DINGUS

DINGUS, Ky., April 19—(By R. H. Ferguson)—Pierce Williams, one of our best citizens, died last Friday at the age of 80. A large assemblage attended the funeral rites at the Christian church Sunday, under the direction of Potter Funeral Home of West Liberty. Rev. J. K. Bolin of Florence read the obituary and commended with a short eulogy regarding Mr. Williams. After a brief talk by Elder A. C. Bradley he led in prayer and Elder Charles Frederick of Florence delivered a soul inspiring sermon. Singing was by Elder Elbert Nickell of Florence and his choir. My schooling ended in 1896, and Mr. Williams was one of the few, yet living, that attended school then.

A part of the Burks Creek road is being graveled and the remainder will be when completed. Minix Cantrell has been helping Yours Truly do some repair work on my house.

## These facts about the New Chevrolet can help you make an important decision

Don't you agree that buying a new car calls for careful consideration? Regardless of make, it involves a substantial amount of money and a lot of future satisfaction. This information can give you a better idea of comparative value and help you decide which make to buy.

A good customer of ours was telling us the other day how he sizes up a new car. Because he's bought a number of them over the years, we were interested in what he had to say. We think you will be, too.

Actually, what he does is to ask about seven basic questions. The answers give a pretty complete picture of the car and its comparative value. Here's what he wants to know.

**How well do I like its looks?**  
That's one question, of course, that only you can answer. You're the one who buys the car and you, above anybody else, should be proud of its appearance.

All we can tell you is that we hear a lot of nice things about Chevrolet's new styling. People seem to like the new front-end and rear-end designs, and the way the bumpers curve even farther around the fenders. They like the new styling touches all around the car and the wide choice of bright new colors and two-tone combinations. A good many tell us that Chevrolet has a decided edge over the other cars in its field for smooth and graceful lines.

**Who makes the body?**  
This question takes in much more territory than the appearance of the car. It involves the quality of the

interior as well as the strength and safety of the body construction. That's why we think it worth your consideration that Chevrolet has the only Body by Fisher in the low-price field.

You can see the difference outside and inside. We'd especially like you to look over the new interiors. Just sit in the car, if you will. Feel the quality of the fabrics and notice the more generous use of vinyl trim.

In all these ways, you'll find evidence of superior quality and workmanship. And after all, isn't that what you would expect in Body by Fisher? As you know, Fisher is the largest and most famous manufacturer of automobile bodies in the world. Doesn't it stand to reason that Fisher can build extra quality into the Chevrolet body? It's there and you can see it.

## What's under the hood?

You hear a great deal of talk these days about engine power. The truth is that the number of horsepower isn't nearly as important as what the horsepower does for you.

In this year's Chevrolet, you get increased power in two finer engines. There's the "Blue-Flame 125" engine teamed with Powerglide automatic

transmission and optional on all models at extra cost. In gearshift models, you get the more powerful "Blue-Flame 115" engine.

But, actually, the increase in horsepower is only a sort of by-product of design changes made for other reasons. Chevrolet engineers were after greater engine efficiency, not just greater power. So, you get improved acceleration, with greater and safer passing ability. You get quieter, smoother operation. You climb the steep hills with new ease.

## How hungry is it for gasoline?

A car's reputation for, and record of, economy of operation is certainly an important consideration to most people. We'd be glad to have you compare Chevrolet in this respect with any car at any price.

And, in the case of this new Chevrolet, you do not have to sacrifice economy for finer performance and more horsepower. That's because the Chevrolet engines are high-compression engines. Their compression ratio of 7.5 to 1 is the highest in any of the leading low-priced cars.

This means simply that the engine compresses, or squeezes, the fuel mixture to a greater degree in order to wring more work out of it. That's how Chevrolet is able to give you an important gain in performance along with money-saving gasoline mileage—and on regular gas, of course.

## Is it up to date in features?

We can't think of a new feature or development you might want that you can't have on the new Chevrolet.

Now you can have Chevrolet's zippy and thrifty Powerglide automatic transmission on any model. You can have Power Steering on all models and at a new, lower price. You can have Automatic Window and Seat Controls on any Bel Air or "Two-Ten" model, and you can have Power Brakes on any model equipped with Powerglide. All are, of course, optional features at extra cost.

## How popular a car is it?

When you come right down to it, there's no better way to judge the satisfaction a car gives its owners than by its popularity. How many people buy it and keep on buying it?

Well, as you may know, Chevrolet is by far the most popular car in this country. That's true today and it's been true for a good many years now. But it couldn't be true—or wouldn't be true—unless Chevrolet gave its owners an extra measure of satisfaction and value.

## How much does it cost?

There's a short, sweet answer to that one: Chevrolet is priced below all other lines of cars. This lower cost is made possible by the greater production facilities and purchasing power of the world's largest manufacturer of automobiles. That is why Chevrolet can offer you all the advantages we've told you about here—and many more, too.

We'd be more than glad to have you see all these things for yourself and to try out this new Chevrolet on the road. We'll be happy to see you at any time.

## FISHING NEWS

Bernard Whitte, Fishing Editor

Oscar McKenzie was telling Wednesday evening in his store that some few years ago he and another man were fishing at the Big Rock at mouth of the Neal Branch and found a big one under the rock.

He—Oscar—lived across the river and went and got two plow lines and tied them together. He got on the rock and the other man went down ten feet of water, tied the fish and gave the signal for him to pull.

He did so and the fish nearly pulled him and the other man in. They landed it and forgot another one under the rock.

Henry Stacy, Charles Price, Burden Stacy caught 18 fish at the mouth of Spaw Creek Monday.

Henry says there were only 15. Henry also caught the largest newt at the pond Wednesday evening about dark that has been seen. Helen thinks it was two feet long.

CHALMER ALLEN CAUGHT 13 FISH LAST SUNDAY

Rev. Fred Penniston, Dr. Ralph Gullett and Clay Walton went fishing at Cumberland Lake this week. Rev. Penniston said here Thursday that Dr. Gullett hooked a large one and pulled it to the boat but it escaped. No other fish were caught. We believe that ministers are too careful about fishing reports.

James Pettit said now is a good time to fish. He is reported to be a good fisherman. He said he was going to try and get the big fish.

The fishing editor landed a 10-pound yellow catfish Tuesday morning. He had baited his bank with a minnow Monday night and found the big fish the next morning. This is believed to be the biggest fish caught this year. If any one has caught a larger one they must have sworn testimony.

We have a card from Floyd Gabbard, postmarked at Corpus Christi, Texas, who states that we could tell the truth about fishing down there. He says the trip is wonderful and so many things to see his eyes are wearing out.

Junior Elam of Florress caught a 24-inch catfish last Thursday. Homer Elam says that Junior is truthful.

In Boyle county, 387 4-H club girls attended 32 project meetings in one month, in foods, clothing, room improvement and good grooming.

### Officiating Minister Is Great Uncle Of Both Bride, Groom

A lovely and impressive wedding took place at the Grassy Lick Baptist church Sunday, April 18, at 2:30 p.m. when Miss Helena Gevedon, youngest daughter of Mr. and Mrs. J. M. Gevedon of Grassy Creek, became the bride of Willie J. Elam, son of Mr. and Mrs. W. T. Elam of Florress. The Rev. C. F. Testerman of Foster, Ohio, the great uncle of both the bride and the groom, performed the double ring ceremony.

Her only attendant was her sister, Miss Nina Gevedon of Ashland. Roy Elam of Dayton, O., brother of the groom, served as best man. Little Miss Brenda Gevedon was ring bearer, and Mrs. George Stewart was musician, playing "I Love You Truly" and the wedding march as her selections.

The church was decorated with white gladiolas and bronze candlelaba.

The bride chose for her wedding a ballerina length dress of lace with nylon marquette over taffeta, elbow length lace mitts and a shroud length veil of nylon tulle attached to a tiara of veivet leaves. She carried an orchid corsage on a white Bible. Her something borrowed was the Bible from her sister, Mrs. Robert Fall, together with a silk handkerchief from her grandmother, Mrs. Jeston Gevedon.

Her attendant wore a pink nylon and net dress and carried a nosegay bouquet of carnations and chrysanthemums. The little ringbearer wore pink nylon and carried the rings in a pink taffeta basket.

The mother of the bride wore a navy suit with pink accessories with a corsage of carnations. The mother of the groom wore a dress of dark crepe with a corsage of white carnations.

Blaine Elam of Lexington and Volney Elam of Laurensburg, brothers of the groom, and Bert Gevedon and Harold Gevedon, Gevedon, brother and nephew of the bride, served as ushers for the occasion.

Rev. Testerman stated that he was not only the great uncle of both the contracting parties, as well as Mrs. Stewart, the pianist, but that he officiated at the weddings of the parents of both the bride and groom, and was also the great grand uncle of little Brenda, the ring bearer.

Following the ceremony a reception was held in the church. A three tiered wedding cake, topped by a miniature bride and groom, centered the bride's table. The little boy escaped without injury. The father sustained several injuries and was taken to Winchester hospital for medical care. A wrecker had to be called before the bodies could be extricated. They were pinned under the tractor for 45 minutes. Little Janet Lynn was two years, 1 month and 21 days of age and was idolized by all who knew her. She was the daughter of Mr. and Mrs. Seldon Pelfrey of Camp-ton. Mrs. Pelfrey will be remembered as the former Miss Luella Ingram, the daughter of Mayo and the late Buford Ingram. Funeral service was held in the Methodist church at Camp-ton, Hearne Funeral directors in charge. Burial followed in the family cemetery at Vance-cle in Breathitt county. Mr. and Mrs. Jas. ## Morgan County Farm Home of the Week

### TAILOR-MADE FOR CHANGES

Many farm families have wanted to add to their homes but they discovered too late that it couldn't be done without making major alterations in the framing. This house is designed to eliminate that extra expense; the floor plans can be developed step-by-step, thus enabling you to adjust your income and your building plans to conform to each other.

Each step has been planned so that your house will be attractive at all times, as convenient as possible and will not require any structure or framework changes when you are ready to make the alterations that you decide are necessary.

For instance, in every case, windows in the original house are replaced by doors in the new addition. The window sizes were selected so the windows could be removed and the doors set in their places. The lines of the room have been kept as simple as possible, thus eliminating any tearing out of its parts when

your addition is made. The back porch and utility room are optional. Ample provision is made for chimneys to heat the living room, bedroom and dining room. The dining room does double duty, since the kitchen stove pipe goes through it, thus saving the cost of another chimney and eliminating smoke from the stove going into the chimney.

Waste lines are divided in two groups. One carries wash water from the kitchen and washroom, and can be disposed of with a grease trap and tile line. When the bathroom is added, this will reduce the size of the septic tank and disposal area.

You can obtain blueprints for this FARM AND RANCH Plan No. 4802 and a handy list of materials by which you can figure your construction cost accurately. Send \$1 to Building Editor FARM & RANCH—Southern Agriculturalist, Dept. E-89, Nashville, Tenn. Order by number—Plan No. 4802. Blueprints are adequate for any farm carpenter or for any farmer handy with tools.
